# Ruth Lipkin
**Full Stack Developer**

Maaleh Adumim | 052-672-6739 | ruthieism@gmail.com
Github | LinkedIn | Portfolio

## SUMMARY

Full Stack Developer experienced in JavaScript based programming with a background in art specializing in 2D Animation. Possess strong problem-solving skills combined with original creative abilities.

## TECHNICAL SKILLS

Javascript, React.js, Bootstrap, HTML, CSS, PostgreSQL, MongoDB, Node.js, Heroku, Premiere Pro, Photoshop, Animate.

## TECHNICAL PROJECTS

**Artistree** - Github | Demo
Social network for artists to share and view art using React, Node.js, Express, MongoDB and CSS.
- Built a fully responsive website including a login/register system with bcrypt password function.
- Created interactive features such as liking/disliking posts, comments, following/unfollowing, private messaging and more using React and hooks.
- Utilized MongoDB database to store user, post and message information.
- Designed the entire website from scratch including multiple pages with various layout designs.

**Ghibli Search Page** - Github
Website to search different Studio Ghibli movies, characters and places using JavaScript, PostgreSQL, HTML and CSS.
- Used pgAdmin to store user information.
- Fetched movie data from a public Studio Ghibli API.
- Created interactive features to view and search movie information.
- Styled all aspects of the website.

## EXPERIENCE

**Freelance Illustrating**                                                                                                Israel
2019 - Present

- Drew and designed multiple book covers using Photoshop.
